I started with a base coat of dark blue, then added brighter blue on top of it and finally covered the bevels with shiny silver [15-17]. Then when I was done, I used it as a guide, which helped me to build every other piece in the same style. I want to share it in my gallery: kamuicosplay.com/epiccosplay Copyright Ã©Â 2019 by Svetlana Quindt. For more super simple sewing tutorials like this, just check out my Sewing Book for Beginners! NOTE Sewing takes time and patience, especially if you are just getting started. The author does not take any responsibility for any harm or damages. For that you need to cover your whole lower arm tightly with plastic wrap [1]. 1 2 3 4 5 6 Next, cut yourself free [4-5], press your duct tape pattern flat on the table and trace it onto EVA foam. That¢ÃÂÂs it, easy right? Let your glue dry for around one minute and then just press them on [11-12]. Shine bright like a diamond Finally, you may also want to add some fancy LEDs to your costume. This book or any portion there of may not be reproduced or used in any manner whatsoever without the express written permission of the publisher except for the use of brief quotations in a book review. Working with foam is super fun and best of all: very affordable. To attach them, simply spread a thin layer of contact cement to the backside of the bevels as well as the area you want to stick them to [10]. All you need is a pair of scissors and a heat gun. Also draw a circle around your wrist and one at the top where you want your bracer to end [3]. Turning yourself into a blinking Christmas tree is not as hard as you might think! Even I managed to understand it and I wasn¢ÃÂÂt very good in math or physics at school! A word of advice though: adding lights to costumes can be highly addictive! Check out my Beginner¢ÃÂÂs LED Book for more! NOTE I installed a lot of LEDs into my Druid Tier 8 costume from World of Warcraft. Go check my our Youtube channel! I upload useful craft tutorials as well as full videos of all my previous fantasy projects. Jersey or lycra work very well! Take a second layer of fabric, pin everything together and follow your brands with your sewing machine. If you are curious and want to know more, just check out my Worbla Armor Book! NOTE My World of Warcraft Warrior fantasy took me about three weeks to do. Even with years of experience, I still fight with the easiest parts. I wrote a guide book of beginners on this topic too! You can also check my Youtube video on the basic LED installation if you are just looking for an overview. If you want to continue with your foam armor, check out my Foam Arming Book! There you will find more information about additional standards manufacturing techniques, learn how to turn foam into steel and discover how to create all kinds of different armor pieces. I am wearing satin spray varnish, which gives my armor a pleasant, soft shine at the end [18]. Many of them also offer cheap or even free material sample sets, which will help you find only the right material for your project. Getting into electronics took a lot of effort, but it was worth it! I learned that the hardest part was really to overcome my fear and get out of my comfort zone. Once you're done, it's time to prepare your work for the next painting work. As you can see, EVA foam can be molded with heat. For this example, I simply warm pasted a 20 cm long separation zipper to both sides of the opening [19-20]. In this way, you are not only able to create round strap, but also can build helmets, protective shoulder armour and even shape of breast fitting for male and female costumes! Use thisYour advantage! To give your belt some pleasant highlights and a more interesting look, you can add foam chanfraras on all edges. I bought you and felt the same! To make it easier, it helps to fold your chamfers with a little heat in advance. For this project, I started with the pectoral. There are many different ways to do this. Painting certainly takes a little patient, but it is also a lot of fun! To protect your finished painting work, apply a last layer of flexible acrral varnish. You will find a detailed wording of this costume on my blog: www.kamuicosplay.com/blog Armor Making - Mini Guide | 9 Fault sew! In addition to the armor manufacturing, there is another large aspect of the creation of costumes that seems to intimidate many people - sewing! Creating sewing patterns is really confusing, and finding the right tissues usually seems an impossible task. assignment.
